

British Housewives' New War Job...

By Iris Carpenter, famous British woman journalist.

Twelve million British women have a new war job. They are housewives, called to arms in a stirring broadcast speech by Mr. Herbert Morrison, British Minister of Supply, to fight with the attributes which distinguish the good housewife all over the world—thrift!

Each recruit in this vast women's army is pledged to be "Up and At 'Em" by saving every scrap of raw material that can be turned into war material. At this time of increased pressure on shipping, millions of tons of space a year can thus be saved for those essential British imports from overseas.

There is no need to stress the importance of their service. Its value may be gauged from the fact that one small London district is already making a hundred pounds a week from the sale of household waste for pig food.

This is only one of five groups of

A skilled workman masked for protection against glare and heat, soldering clips for Bren guns in a

Canadian factory. Canada is now producing thousands of these modern rapid-fire weapons.

TAKES OFF GRIME WITHOUT SCOURING

NO need for hard rubbing and scrubbing when you use a solution of Gillett's Pure Flake Lye. It cuts right through grease, cleans clogged drains, keeps out-houses sanitary and odorless, scours pots and pans, takes the hard work out of heavy cleaning. Keep a tin always handy.

FREE BOOKLET—The Gillett's Lye Booklet tells how this powerful cleaner cleans drains, keeps out-houses sanitary and odorless, scours pots and pans, takes the hard work out of heavy cleaning. Keep a tin always handy.

"Never dissolve lye in hot water. The action of the lye itself heats the water."

materials which can be saved in the national interest. The others are paper, bones, rags and metal. Uninspiring weapons with which to wage a crusade, which will be wielded nevertheless with enthusiasm.

First operation in the campaign was a march to those corners of every home where lumber is kept. Every housewife knows the strange assortment of small objects she keeps because they may one day be useful. The accumulations of twelve million homes represented vast treasure troves.

It had to be collected, sorted and got to the factories to be turned into war material with the least possible delay. So every town, every village throughout the country made a battalion of itself to get on with the job—competing with each other in the speed with which they could complete it.

A town in Kent had its ten thousand houses cleared and the material delivered to the factories in less than a week.

This is how they did it: One housewife in every street called on all the others. She made a list of those who would want help in the sorting of their lumber. Those with small children had not time perhaps to give a whole morning to turning out every cupboard in the house. Another list was made of those with time enough to give help to others.

Working parties were grouped together. These went from house to house, sorting cupboards, the attic, garage—even garden sheds. All salvage was sorted carefully to its proper group. Then it was carried out to lorries and driven direct to factories waiting to deal with it.

Women in another town enlisted the help of small boys to help with the loading. They borrowed cars and lorries. Drove them up and down the roads. One lorry loaded four tons of scrap metal in less than an hour!

A London borough asked everyone to hunt out their scrap metal and put it on the pavement outside their home for collection. Next day the streets presented an extraordinary sight. Outside each house was an incredible assortment of objects. There were beds, baths, pans, old bicycles, prams, lawn mowers, garden railings, children's toys. Even hair curlers and lipstick cases were to be seen destined for transformation into guns, tanks and aeroplanes.

It must not be imagined, however, that this campaign to turn raw material into war material is a mere skirmish, to be settled by one onslaught on household "junk". Each recruit has helped to launch the first attack with the donation of her home's reserves. She is preparing now a blockade of daily vigilance. Regarding her home as a battle position which waste must not be allowed to leave unless marshalled in the national interest.

In peace time Great Britain used three and a half million tons of paper a year. In war much more is needed. Special paper is wanted for the making and packing of explosives. Photographic, tracing and chart papers are needed for the army, navy and air force. More than 10,000 tons of clean waste paper is available for preservation every week. So the saving of every possible scrap is one of the most important of the Salvage Army's duties.

Each member will tie the paper she saves each week into a neat parcel to put on her doorstep for collection. There will be newspapers, food cartons, cigarette boxes, letters and wrapping paper. Repulsed and processed these will serve again as rifle and shell cases and food containers for the troops.

There will be other parcels on her doorstep, too! One for bones. These are a valuable part of household waste providing glycerine for explosives. Feeding stuffs. Fertilizers. Glue for aeroplanes.

CONSCRIPT YOUR QUARTERS AND DOLLARS TO BUY WAR SAVINGS STAMPS.

SCOTT'S SCRAP BOOK

By R.J. SCOTT

MOROCCAN ARAB MERCHANTS FALL ASLEEP AMONG THEIR WARES DURING BUSINESS HOURS

THE RAT-KANGAROO OF TASMANIA GRABBS GRASS AND STICKS FOR HIS NEXT MEAL

One for rags and old clothing of all descriptions. These make blankets—even uniforms.

There will be a parcel of metal. Metal tops from milk bottles. Tooth paste and face cream tubes. The tins which have contained vegetables, chocolate, meat, milk and fish. These all have a variety of war uses.

A pall for household scraps must have a place. How valuable these are for the feeding of pigs and poultry can be gathered from the fact that special machinery for their conversion into meal is being installed in various parts of the country. No less than forty pigs can be fed each week from the kitchen waste of every thousand homes!

It does not matter how small the parcels are as long as the contents of each are properly sorted for easy despatch to the proper quarter.

It takes only one old envelope to make a cartridge wad.

If each housewife's thrift resulted in the saving of only two ounces of bones a week, Britain would get more than 30,000 tons a year.

One or two tins saved every week from every home would make an enormous yearly tonnage. And it takes only one ton of metal to make 150 cases for 18-pound shells.

Unimposing though the work of this army may seem to the housewives of other lands, it is an important, if somewhat strange, development of modern war. Every pound each British housewife can save means more than the saving of money and shipping space. Her thrift is providing something a sailor need not risk his life to replace.

As she puts out her parcels on collecting days she can be proud of her service. Her "doorstep ammunition" will help to shorten the war!

You can say for money—it takes only when it is leaving.

B. Leslie Emalie, C.D.A. (Glas.) F.C.S.

JERSEYS IN QUEBEC NEED GOOD PASTURES

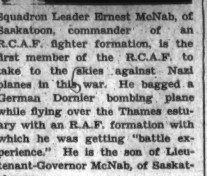

Whatever fate may befall the breed in the Channel Islands, W. Elmo Ashton of the Gables Farm, Foster, Que., is putting the Jersey on the map in the eastern townships of Quebec. Once, he remarked, it was not unusual to lease a Jersey owner with the taint that a man too proud to keep a goat kept a Jersey, and many of those who spoke so disdainfully of the Jersey should have had goats, said he!

It was the privilege of the writer, B. Leslie Emalie, to revisit the Gables Farm in July, not only for the pleasure of admiring the famous Jersey herd but also to observe the results obtained by Mr. Ashton from the use of fertilizers on turnips, pastures and hay. The turnip crop is the finest in the county and was grown with the aid of a 2-12-6 fertilizer, to which bones have been added for the control of brown-heart, a disease that threatened the crop last year.

One of the sights at Gables Farm is a small paddock of one and a half acres, which has furnished grazing for seven Jersey cows all season and looks as if it would continue to do so indefinitely. The close-growing mat of nutritious, palatable grasses and clover has been maintained for years by annual applications of fertilizers consisting of odds and ends left over from the treatment of other crops. Sometimes it would be 2-12-6 next time 4-8-10 and occasionally straight superphosphate. But the combination has produced this remarkable pasture.

The following day a visit was paid to Sandon Hall Farm, North Hatley, the attractive property of Olive Doherty, another Jersey breeder, which commands a magnificent view of beautiful Lake Manawapip, and the higher one climbed toward the browsing kine on the upper plateaus the greater became the desire to feast the eyes upon the scene below. But the Jerseys seemed impressed neither by admiring eyes nor by the scenery, as they continued to feast on the succulent herbage in the process of producing butterfat.

These permanent pastures are not what they used to be, said Mr. Doherty, and pointed to a nearby unimproved patch covered with poverty grass and mossy hummocks. It was all like that when Mr. Doherty acquired the property some three years ago.

Squadron Leader Ernest McNab, of Saskatoon, commander of an R.C.A.F. fighter formation, is the first member of the R.C.A.F. to take to the skies against Nazi planes in this war. He bagged a German Dornier bombing plane while flying over the Thames estuary with an R.A.F. formation with which he was getting "battle experience." He is the son of Lieutenant-Governor McNab, of Saskatchewan.

An optimist can always see the bright side of the other fellow's misfortune.

The World of Wheat

H. G. L. Strang.

Director, Research Department, Searle Grain Company, Ltd.

Many lots of wheat being hauled by farmers to elevators from this new crop contain split kernels to an extent that often good No. 1 is being degraded down to 2 and 3 and sometimes to 4 and lower grades. This represents a serious loss to the farmer.

Wheat containing split kernels is being degraded by the Government Inspection Department for the reason that millers strongly object to it, for split kernels are almost impossible to separate from sound wheat. Millers find, too, that wheat containing split kernels does not make as much flour nor as good quality flour as sound wheat.

Most, if not all, of the split kernels that are present in this year's crop could be avoided if particular care is taken in threshing. Conaves should be opened up wider, or fewer used; perhaps even blank conaves may in some instances be necessary. In any event farmers should watch carefully the first few bushels coming over from the combine or separator, and then should adjust their conaves so that wheat will not be split. The loss from having a few white heads or unthreshed spikelets in the grain will be very much less than the loss from threshing close, and so of running the risk of splitting kernels.

Following factors have tended to raise prices: Broomhall reports estimated combined wheat yields of Roumania, Yugoslavia and Bulgaria to be 222 million bushels this year as compared with 348 million a year ago—Australian wheat crop prospects continue unusually poor—Scandinavia wheat crop prospects below normal—Increased political tension between Roumania and Hungary.

Following factors have tended to lower prices: Broomhall estimates exporters' surpluses will be 712 million bushels above world requirements—Private reports estimate Western Canadian wheat crop at 498 million bushels—Argentina recently revised wheat carryover upwards by 27 million bushels.

It's better to give than to lend, and it costs about the same—Philip Gibbs.

HEALTH

A HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION AND LIFE INSURANCE COMPANIES IN CANADA

PREVENTION OF WHOOPING COUGH

From studies made at the Connaught Laboratories and School of Hygiene, Toronto, one gains the view that whooping cough may be prevented by the timely use of a fresh strain vaccine produced for this purpose. The study referred to was carried on for six years among the groups of control and vaccinated children. Up to the present time 288 control and 1,007 vaccinated children have been followed. Of the former, 52 and of the latter 97, were in contact with cases of whooping cough. The number of cases in the first group were 48 and in the latter group 10, so that the respective percentages were 82 and 10.

Of the 97 contacts in the vaccinated group there were 39 direct exposures to brothers and sisters with whooping cough. In the 23 instances the nature of the contact was intimate and continuous (often kissing, drinking from the same cup or sleeping in the same bed). None of the 23 developed the disease from their brothers and sisters. This is strong evidence of the protective value of the vaccine since one would not expect all of the 23 children continuously exposed to whooping cough to escape the disease.

It will be noted that there were 82 cases of whooping cough in the control group and but ten in the vaccinated children. This is another strong suggestion that the vaccine protects.

Another fact, already referred to, is that while 82 control children coming in contact with whooping cough, 45 contracted the disease, giving a morbidity of 82 per cent, but 10 of 97 vaccinated children were infected, giving a morbidity of but 10 per cent in this group.

The foregoing, added to one's own experience in the use of whooping cough vaccine, indicates that this protective remedy should be used in all cases where there is a threat of this disease.

Long ago when fall rolled around and the season for corner-lot games began, old folks listened for the cry of "Ho! Ho! Silver!" That cry was as much a part of the season as the rich smell of smoke from burning leaves. The leaves still take on the same bright colors and come in the same crowds, with youngsters playing their mid-season games, but the old watch-words have disappeared. Now-a-days, nine times out of ten, the cry is "Hi, Yo—Silver!" Across the lot and down the lanes you hear young-foots feet clattering in life-like imitation of the famous white horse, Silver—the fiery horse with the speed of light, the cloud of dust and hearty hi, yo, Silver—the Lone Ranger! Monday, from C.J.C.A. at 8.30 p.m., that famous cry will ring out again, and Northern Alberta listeners will be tuned in for another thrilling Lone Ranger adventure. For the first few weeks the broadcasts will be heard Monday, Tuesday and Friday at 8.30. Starting September 30, the time will change to 6.30 p.m., but the days will remain the same.

Next Monday also marks the commencement of the new series in Lux Radio Theatre. On Monday, the largest cast in the history of the Theatre will be used as William Powell, Myrna Loy and Don Ameche star in "Manhattan Melodrama." Thirty performers and eight microphones will be used. Over 60 persons are required to produce the drama. The new series will be released as before, through C.J.C.A.

So much for the dramatic outlook for radio listeners this fall and winter. Lovers of music have plenty in store for them, too. Wayne King will be back on C.J.C.A. on September 21, 6.30 to 6.00 p.m. Last season he was right around the top in maestro popularity, and they claim that this season's program is going to be even smoother and more entertaining than before.

Light Up and Listen will be back on September 23rd, at 9.00 p.m. This time a new Master of Ceremonies—

Throbbing motors of this giant Handley-Page bomber recently added their roar to the rising tempo of Canada's aircraft industry, the first of a large order for the British government.

the popular Milton Cross. As for me, the old M.C. was good enough, and made a swell job of knitting the show together. Nevertheless, I'll welcome the change and I think all listeners will, because Milton Cross can fill most any shoes to overflowing. He should make a good show just that much better.

Top Flight Tunes, a program that made its debut last winter, has won its spurs, so to speak, and will get going again Thursday, September 24, at 6.00 p.m. Top Flight Tunes had all the qualities of a hit parade with more variety and smoothness. It earned a second run... and should be welcomed by C.J.C.A. fans.

"How many cuts must be made in a rope 11 yards long before all pieces would be one foot in length?" a writer asked Uncle Jim of the stream-lined "Question Bee" heard Wednesday from C.J.C.A. Uncle Jim answered "33" and letters of protest poured in. The answer is "32" and Uncle Jim tendered an apology, at the same time remarking, "Wouldn't it be awful if I NEVER made a mistake?"

Man has now conquered almost every dangerous thing in nature except human nature.

Some cause happiness wherever they go; others whenever they go.

WAINWRIGHT, WEDNESDAY, SEPTEMBER 11th, 1940

HAVE YOU REGISTERED?

Each year, on the second Monday in February, there is much walling and gnashing of teeth around Wainwright. That's the day on which our municipal elections are held. It is also the day on which people who have "lived here for years" find that they are not on the voters' list and in consequence town officials and election officers are accused, either openly or sub rosa, of conspiracy to deprive eligible voters of their franchise. A little trouble at this time of year may save much grief later on, and a clear understanding of the regulations will give everyone who is entitled thereto a chance to vote.

Elsewhere in this issue will be found an advertisement, inserted by the Town Council, setting forth the procedure necessary to insure the placing on the voters' list of all the names which are legally entitled to appear thereon. However, since the legal phraseology of this advertisement may be somewhat confusing to some of our readers, we give a brief resume of the regulations covering this important matter.

If your name was on the last revised assessment roll of the town (that is, if you were assessed for taxes in the year 1940) your name will automatically appear on the voters' list and no further action will be necessary. However, the wife, husband, father, mother and each son and daughter (if over the age of 21 years) of an assessed property owner is also entitled to vote, but in order to secure the franchise these persons MUST register with the Secretary-Treasurer of the Town during the months of September and October.

If you are a tenant, renting an assessed parcel or portion of an assessed parcel, for at least 12 months prior to August 31, 1940, you are entitled to vote ONLY if you have registered. You MUST register during

the months of September and October.

If you are the wife, husband, father, mother, son or daughter of a tenant who is registered as above, you are entitled to a vote also, but ONLY if you have registered. You MUST register during the months of September and October.

Persons desiring to register must obtain forms from the Town Secretary and then appear before a commissioner for oaths to have the form duly signed.

To summarize: If you have been assessed this year, your name will automatically appear on the voters' list. If you are a close relative of an assessed property owner, or if you are a tenant or a close relative of a tenant, you are entitled to vote ONLY if you have registered during the months of September or October, 1940.

Remember, it's up to YOU to see that your name appears on the voters' list. Don't wait until next February to find out that your name does not appear—Register NOW and save regrets.

PATRIOTISM

Patriotism isn't just marching behind a band and puffing out your chest.

Patriotism isn't a flash of fireworks one day of the year and then submerging your emotions the rest of the year.

Patriotism isn't always found in the whooping of the crowd or mauling in flag-waving or surface sentimentality.

Patriotism is the sum total of the three cardinal virtues: Faith, Hope and Charity. Faith in the principles of our government, Hope in the future of democracy, Charity toward all and malice toward none.

Patriotism is a sincere affection for our own family, devotion to our relatives and loyalty to our friends. Faithful to the "old home town" and pride in our native province.

Patriotism is that spirit that makes us want to be of real help to our neighbors when they are in distress or meet with reverses, to extend our sympathy when they are stricken with grief.

Patriotism is the tugging at our heart-strings and a sincere kinship with those who toil for a daily wage in field or shop or market place.

Patriotism is the emotion that makes a lump rise in our throat when some intrepid spirit strives to achieve something that no human being ever accomplished before.

Patriotism is unshaken at the moisture that comes welling up in our tear-ducts with the passing of some great and noble soul who unselfishly devoted his life to the cause of mankind or in the service of our Nation.

Patriotism is loving one's country, respecting its traditions and honoring its people, high or low, rich or poor.

Patriotism is the deep-rooted, quiet pride of fellowship with a Nation of men and women who, by and large, have high ideals and who gladly and willingly respond to the demands on their time and abilities over and above their regular line of duty when our country calls.

CO-ORDINATED TOURIST EFFORT

It is encouraging to know that the tourist visitors from the United States, are coming across the borders in increasing numbers. At many points the lag which occurred in early July has been overtaken.

One thing which Canadians well know, but which is not generally appreciated in the United States is that our tourist season could well be lengthened by many weeks.

Too often summer resorts and transportation facilities close up shop in early September. If greater stress were laid on the beauty and charm of Canada's autumn, it is certain that the stream of friendly visitors across our border would be increased very considerably.

This is an important point for voluntary tourist committees and local tourist bodies to keep in mind.

Another lesson from our 1940 season is the need for greater co-ordination at Ottawa of various tourist agencies.

This need has often been stressed by The Financial Post. It has become

Shells being tested in a Canadian factory before the application of

the copper driving band. Thousands

of these are being turned out daily.

more than ever necessary now that scores of local and voluntary organizations are helping to educate Canadians to be "good hosts to good neighbors" and in merchandising the tourist attractions of "friendly Canada."

At present, several departments of government and scores of official and semi-official groups share tourist responsibility. They should be co-ordinated under a central board, established probably to the Department of National War Services.

This board would co-ordinate the excellent work now being done by the Canadian Travel Bureau, the Foreign Exchange Control Board, and in a lesser degree the Department of Defense, the Department of Finance and the Department of Mines and Resources.

To leave this until next year would be too late. It should be tackled now and plans made for a concerted effort on fall and winter travel as well as on plans for 1941.—Financial Post.

GERMAN CANADIANS' DUTIES ARE SOLELY TO CANADA

The German language paper, "Der Courier," published in Regina, recently printed an editorial on the duty of German Canadians to Canada. Following are translated extracts:

"Canada is at war and, in this grave and critical time, she demands not only the absolute fidelity of her citizens, but also sacrifice and self-denial. On more than one occasion German-Canadians have shown their loyalty to Canada—to Canada, which has given them a new existence and a secured future."

"It is a matter of conscience for every single German-Canadian, also in times of war, to do his duty as a citizen fully and completely. Every man and every woman must stand firmly and faithfully behind the government in this critical time, and conscientiously obey all its orders and decrees. Whoever is not in army service can make himself useful in other ways, and assist the war efforts of the government. Every single citizen must contribute a part towards the preservation of our freedom, which can only be secured and consolidated anew by winning this war. Handicraftsmen—and there are many learned and clever artisans among the German-Canadians—can be active in the war industry, farmers must remain on the soil indefatigably and produce the necessary food and raw products, even if they have a surplus of wheat at the present time, and so forth. Everyone can and should buy war savings certificates and war savings stamps and, in this way, enrich Canada's war chest. After a few years, money loaned to the government in this way will be received back with interest. Everyone can help in this manner."

CONTINUATION OF Town Council

(Continued from Page 1)

Province of Alberta, together with six parcels with improvements, offered for sale in previous years, title to which had not been taken by the town on instruction of council. None of these parcels have been redeemed, since being so offered for sale but the arrears, on a number of these parcels have been considerably reduced. The committee recommended that the Secretary-Treasurer be instructed to take title to all unimproved parcels offered for sale in 1939 which have not since been redeemed, but that title be not taken to any improved lands in the list, either those offered for sale in 1939 or previously, as the committee had interviewed those responsible for payment of these arrears and he received promises of payment, and on motion by Councilor Welch, the report of this committee was received and accepted and their recommendations endorsed.

The financial statement for the month of August, 1940, was submitted to council by the Secretary-

Treasurer and, on motion by Councilor Huntingford, this financial statement was received and accepted and incorporated in the proceedings of this meeting.

A delegation from the Wainwright Library Board appeared before council, requesting that space be afforded in the fire hall for the housing of the library and, on motion by Councilor Huntingford, it was resolved that the request of the library committee be granted by allowing use of the room in the fire hall formerly rented by the Municipal District of Gilt Edge or such other space as may be found available until such time as a paying tenant is obtained for such space.

On motion by Councilor Huntingford, council assented to the introduction of a by-law concerning the sale of Lots 9 and 10 in Block 18 Plan 6445V. Bylaw No. 261 was then introduced and given its first and second readings on motions by Councilors Alderman and Welch respectively.

On motion by Councilor Huntingford, the public works committee was authorized to procure eight stop signs and to have these placed on Main Street at the corners of Second, Third, Fourth and Sixth Avenues, abutting on Main Street.

On motion by Councilor Huntingford, council authorized one insertion in the Wainwright Star of the notice to those requiring to register previous to the placing of their names on the voters' list of the Town of Wainwright for the year 1941.

Councillor Welch gave notice that at the next regular meeting of council he will introduce a motion to amend the resolution duly adopted by council at its regular meeting of June 4th, 1940, relative to discounts to be allowed on certain current taxes by way of rebate for prompt payments on or before certain dates there.

PUBLIC NOTICE Town of Wainwright

Notice to Relatives of Persons on the Assessment Roll and to Tenants and to Relatives of Tenants Whose Names Are Added to the List:

NOTICE is hereby given that, during the months of September and October, 1940, applications may be made under the provisions of Section 188 and amendments thereto of the Town and Village Act, for the inclusion in the 1941 voters' list of the Town of Wainwright by the following persons, viz:

(a) Every tenant who for a period of twelve months immediately preceding the last day of August, 1940, has rented an assessed parcel, and every tenant, who has rented, for the said period, a self-contained apartment or residence on an assessed parcel upon which there are two or more self-contained apartments or residences and who makes application to be entered in the said voters' list during the months of September and October, 1940;

(b) The wife, husband, father and mother and each son and daughter of each person:

(1) whose name appears on the assessment roll, and

(2) whose name has been added to the voters' list as a tenant in accordance with paragraph (a) above,

who are entitled to be placed upon the said list—

(I) if he or she resides within the Town of Wainwright, and

(II) if he or she is of the full age of twenty-one years, and

(III) if his or her name does not already appear on the assessment roll, and

(IV) if he or she duly makes application to be entered therein during the months of September and October, 1940.

DATED at Wainwright, Alberta, this 26th day of August, A.D. 1940.

N. S. KENNY,
Secretary-Treasurer.

AMONG THE OLD-TIMERS

REMINISCENCES OF OTHER DAYS

TEN YEARS AGO

Mr. R. J. A. Roberts is home from the city where he recently underwent an operation.

On the Gene Tery farm near town, 60 acres of Garret wheat threshed 2,450 bushels and graded No. 2.

Keith Parkhurst is in the local hospital, where he is suffering from blood poisoning in his foot.

Dr. Middlemass left at the week end for Santa Monica, California, where he will spend a short holiday.

Felix Grayston underwent an appendix operation at the hospital during the past week.

To fill a position in the Viking gas field, Mr. Carl Brunner left recently for that point.

Mr. John Hedlund, sr., returned to the hospital to receive further medical treatment.

A garage is being added to the Joe Cameron property on Third Avenue.

FIFTEEN YEARS AGO

Mr. T. Lismore left last week for Kansas City, where he will attend a convention as delegate of the local C.N.R. carmen.

Mr. D. Albertson, proprietor of the Chauvin Chronicle, passed away on Wednesday at the age of 46 years.

When a car driven by Mr. Vic Hedlund turned over into the ditch, Mr. Frank Dahlgren was instantaneously killed early Thursday evening.

He was 37 years of age.

Mrs. Louie P. Lally, an old time resident of this district, passed away on Monday morning at the age of 67 years.

GREENSHIELDS

Several threshing machines began the season here Tuesday last with very favorable weather conditions.

The showers at the week end will hold up operations for a few days, though.

Miss Dorcas Morrick has been a patient at the Wainwright hospital for a few days this week, having had her tonsils removed.

Congratulations to Mr. and Mrs. Sam Rajotte on the birth of a daughter on September 8th.

Mr. Doug. Jackson is now operating Bond's Service Station.

Mrs. Fred Preece was in the city last week a few days visiting her husband, now in training with the Edmonton Fusiliers.

AGRICULTURE SCHOOLS

OPEN OCTOBER 12

The Schools of Agriculture at Oida and Vermilion open again on October 10th, 1940. Already inquiries are being received from prospective students, and it will not be long before they begin to assemble for the courses in Agriculture and Home Economics. Some will return for the second year to renew friendships and take up the work where they left off last spring, while others will enter as "freshmen". The average attendance at the two schools is about 350 students per year.

The purpose of the Schools of Agriculture is to train young men for agriculture and young women as homemakers. Most of the students come from farm homes, and over 90 per cent of them return to the farm. The remainder go on for further professional training, or enter other walks of life. The Schools encourage the students to become more proficient in their chosen field of agriculture and home making.

The course emphasizes the practical nature of agriculture. Much of the time is spent in the "labs" where the boys study soils, grains and grasses. In the blacksmith shop, the carpenter shop and machine shop, they gain further information about very important phases of farming. The livestock herds at both schools are outstanding, offering an excellent opportunity for the students to learn the characteristics of good livestock and the proper methods of feeding and caring for them. The courses are kept up-to-date in order that the boys leaving the schools may be aware of the latest developments in the science of agriculture.

The courses in home economics are practical, too. The girls spend much of their time in the cooking laboratory or the sewing room. There is also a model apartment where each girl gains experience in the actual management of a home. Among the courses for girls are nutrition, sewing, home nursing and household administration.

All the students take general courses in public speaking, citizenship and the like, while they may enter for instruction in dairying, poultry, horticulture, etc.

The regular course is two winter terms, each of about five and one-half months' duration. A special "two in one" course is offered for students who have completed their Grade XI schooling. There are no tuition fees for Alberta students, but fees for library, caution money, student union, books, etc., amount to about \$13.00 for the year. The dormitories, modern in every way, provide excellent board and room for a very reasonable sum.

Life at the Schools of Agriculture is a valuable experience. The students have a full program. Besides their studies, which are of first importance, there are many other phases of the training that are extremely valuable. Public speaking, dramatics, debating, music, sports and other recreation are encouraged under the supervision of the staff.

Many of the former graduates of the Schools of Agriculture are now leaders in their communities, and some of the most successful farmers in the province were once students at one of the Agricultural Schools.

CROP REPORT No. 12 BY

BANK OF MONTREAL

The Bank of Montreal's 12th crop report of the season says that, in general, good progress has been made with the harvesting of crops in the Prairie Provinces, although operations were temporarily delayed by wet weather in Manitoba and parts of Saskatchewan. Threshing is well advanced in Manitoba and is becoming general in Saskatchewan. In Alberta a good percentage of the wheat has been cut and threshing has commenced in the southern districts. Wheat yields on the whole are favorable in Manitoba and Saskatchewan. Alberta has maintained the prospect of a good crop, with anticipated wheat production greater than last year. Wheat is grading well, although recent rains may lower the grades in some districts. Slight frost

EDGERTON

All good things come to an end and sooner or later—mostly sooner—so here we are back at the daily grind, after a very enjoyable rest and all set to chatter up this column with that bug-bear of all long-suffering editors: mere twaddle. "So sorry, W.J.H."

The big trouble at the moment, though, seems to be a complete lack of interesting local news. At any rate, we have been quite unable to unearth anything even mildly exciting that has happened during our fortnight's absence, but as the European news provides a surfeit of blood-chilling items, perhaps it is just as well.

Oh, yes, we did hear that Mr. and Mrs. Paul Spornitz are the proud parents of the most beautiful baby that ever happened and considering said infant is a son and heir, well, that really is something. Congrats, Pat and Paul; may he prove a blessing.

Farmers in general around this district were not very pleased about the rain that fell on Friday and Saturday last. However, we understand that pasture lands will benefit greatly, proving the old proverb, "One man's meat is another man's poison."

One strange thing has rather impressed us and that is of the many students we have spoken to recently, concerning the re-opening of school, all but one said they were really glad about the whole thing, and actually spoke as if they meant every word.

Does that mean that youth is realizing the extreme gravity of the present time and is bent on preparing in every way for a difficult future? That is a happy thought!

His Majesty's call for another day of intercession throughout the Empire was certainly answered in this town.

We attended the Anglican Church and found it packed, also, judging by parked cars at the United Church, conditions must have been the same there. God is still in His heaven so who can doubt that we shall soon hear of another miracle comparable to the one at Dunkirk.

We noticed Fred Heard in town on Monday last and it is understood that he is back to tract a spot of business in connection with his farm north of town which he rented some years ago when he left the district to reside in B.C.

Sheepskin Flats

Mr. K. McLean, who has spent the past two months with his nephew, Mr. M. Templeton, has returned to town.

Mrs. A. Roberts has just received word of the death of her cousin, Lt. Commander F. Barker, of H.M.S. Wren. He was killed in action.

We are glad to report that Mr. D. Chedoke, who has been in the hospital with a poisoned foot, is back home again feeling much better.

We welcome our new school teacher and his wife, Mr. and Mrs. "Gib" Creech into the district.

Mrs. L. Myer spent a few days last week in the city.

HUMOROUS COINCIDENCE

THESE OF PICTURE

Treated lightly in the main and with emphasis on the humorous side, this Louis Bromfield novel of coincidence, "If All Chances Truss", yields 80 minutes of solid entertainment well off the beaten path. In it Ann Sheridan gives her best performance to date, reminding of the latter day Jean Harlow, and Humphrey Bogart provides one of his less murderous and more, amusing gangster portrayals. Jeffrey Lynn has a somewhat less successful casting, but there is plenty of acting strength in supporting per-

formances by Sam Pitts, Una O'Connor and others.

The story opens in a brownstone mansion turned boarding house by two genteel ladies whose modern son and daughter, respectively, are a musician in circumstantial threat of a gangster, and a torrid but virtuous and unemployed cafe singer. The gangster forces the boy to hide him out in the boarding house where plausible and amusing developments take place. Miss Sheridan sings two or three new songs and a medley of old ones with much effectiveness in this Monday, Tuesday and Wednesday picture

Hints for the Household

Conducted By Betty Barclay

COCONUT CREAM PIE
The old saying, "It's as easy as pie" must refer to its eating because in spite of the overwhelming popularity of pie as a dessert, many homemakers hesitate to bake pie often. Some cooks seem to have no difficulty in turning out mouth-watering pies and others have dismal failures almost every time. The difficulty in the majority of cases will be found not in the ingredients but in the method. In the preparation of pie crust, too much handling and too much water are the most frequent causes of poor crust. All pies should be started in a hot oven—from 425 degrees to 450 degrees—allow them to bake at this temperature from 10 to 15 minutes, then reduce heat to proper temperature for baking the filling.

This recipe for Coconut Cream Pie can be a thorough success if the rules are followed and the best ingredients used.
Pie Crust
2 1/2 cups sifted cake flour
1/4 teaspoon salt
2-3 cup cold shortening
1-3 cup cold water (about)
Sift flour once, measure, add salt, and sift again. Cut in shortening until pieces are about size of small peas. Add water, sprinkling small amount over flour mixture and mixing with fork only enough to make flour hold together. Continue until all flour has been mixed in separate portions. Wrap in waxed paper. Chill thoroughly. Roll pastry 1/8-inch thickness. Fit loosely on 9-inch pie plate. Trim edge. To bake, prick with fork or line with waxed paper and fill with beans or rice during first few minutes of baking to hold shape. Bake in hot oven (450° F.) 15 minutes. This recipe makes 2 9-inch shells.

Coconut Cream Pie
5 tablespoons cake flour
4 tablespoons sugar
1/4 teaspoon salt
1/2 cup cold milk
1 1/2 cups milk, scalded
2 egg whites
3 egg yolks, slightly beaten
2 teaspoons vanilla
1 1/2 cups coconut, premium shred
1 baked 9-inch pie shell
4 tablespoons sugar
Combine flour, sugar and salt; add cold milk and mix well. Add scalded milk gradually, place in double boiler and cook until thickened, stirring constantly. Four small amount over egg yolks, return to double boiler, add 1 cup coconut, and cook 3 to 4 minutes longer. Cook. Add vanilla. Pour filling into pie shell. Beat egg whites until foamy throughout. Add sugar. 2 tablespoons at a time, beating after each addition until sugar is thoroughly blended. After all sugar is added, continue beating until mixture will stand in peaks. Fill lightly on filling.

Orange Fruit Paste
1/4 cup ground unpeeled oranges
1/4 cup orange juice
2 1/2 cups apple sauce or stewed fresh or dried apricots or peaches
1/4 cup liquid pectin
1/4 cup light corn syrup
2 cups sugar
Cook oranges, orange juice and cooked fruit for 20 minutes, stirring often. Use large kettle, preferably gallon size. Add pectin, corn syrup and sugar. Cook 15 to 20 minutes longer, stirring constantly. When mixture is consistency of a thick preserve, pour 1 inch deep into shallow pan. When cold cut into squares or other desired shapes. If wished, roll in powdered sugar. Recipe makes 2 1/2 pounds.

Orange Marshmallows
2 tablespoons unflavored gelatine
1 cup orange juice
2 cups sugar
1 egg white
1 teaspoon grated orange peel
Powdered sugar
Soak the gelatine in 1/4 cup of the orange juice. Add the other 1/4 cup orange juice to sugar and boil to hard ball stage (265° F.). Stir this into the soaked gelatine and beat until dissolved. Beat egg white until stiff. Gradually beat the gelatine mixture and orange peel into egg white and continue beating until cool and stiff. Pour into a square pan that has been buttered and dusted well with powdered sugar. When firm cut knife. Roll in powdered sugar. Keep in a covered container in refrigerator to retain moisture.

Wife Preservers
A New York judge has ruled that a hearse is a pleasure vehicle. Some courts have a distorted idea of what constitutes a good time.

Beauty for YOU
The Secrets of Good Looks by Barbara Lynn.
HAVE YOU AN OILY SKIN?
The oily or greasy skin is not uncommon. It is inclined to be coarse in texture and is subject to open pores and blackheads. On its credit side, it can be said that it is not nearly so likely to wrinkle as a dry skin. These general rules may be laid down for an oily skin: (1) Have a face pack every 10 days, because a greasy skin responds well to a facial. (2) Keep the skin immaculately clean. Wash often, using soothing palmolive soap and warm water, then rinse with cold. (3) Use lots of astringent lotion. (4) Massage the skin often. (5) Keep your system toned up. Kikwah health salts, taken several mornings each week, will help you in this resolve.

Never, never plaster fresh make-up on top of the old. This is bad for any skin but especially for an oily skin. Don't use astringents at bedtime, because you must keep the pores open whilst sleeping so that the various acids and other secretions can escape naturally. For the same reason, don't leave cream on overnight if you have an oily skin. Massage is excellent as it brings the blood to the surface in the same way that a face-pack does and keeps the under-skin free from impurities. Friction is good for the oily-type skin. Always use a rough towel after washing, but if you suffer at all from split veins do not rub too hard.

Write me direct about your personal beauty troubles, and enclose four one-cent stamps for my booklet on Healthy Care. Address: Miss Barbara Lynn, Box 75, Station B, Montreal, Que.

May Form Joint Defence Committee

Following their historic conference at Ogdensburg, N.Y., President Roosevelt and Premier Mackenzie King announced a joint defence committee will be set up by the governments of the United States and Canada to consider defence measures for the American continent. Heads of the armed services of both countries will probably make up the joint committee. Above are the defence heads of Canada and the United States. Top, left to right, General George C. Marshall, Chief of Staff of the U.S. Army; Rear Admiral Percy W. Nelles, Chief of the Canadian Naval Staff; Major-General H. H. Arnold, Chief of the U.S. Army Air Corps. Bottom, left to right, Air Commodore L. S. Broadner, Chief of the Canadian Air Staff; Major-General H. D. G. Crerar, Chief of the Canadian General Staff, and Admiral H. R. Stark, Chief of U.S. Naval Operations.

DOMINION OF CANADA SECOND WAR LOAN \$300,000,000

The Bank of Canada is authorized by the Minister of Finance to announce the offering of a loan to be issued for cash in the following terms:

3 Per Cent Bonds due October 1, 1952
Callable on or after October 1, 1949

Issue Price: 98.75% and accrued interest
Yielding 3.125% to maturity

Denominations of Bearer Bonds: \$100, \$500, \$1,000

The proceeds will be used by the Government to finance expenditures for war purposes. Payment is to be made in full against delivery of interim certificates on or after October 1, 1940. Principal and interest will be payable in lawful money of Canada. Interest will be payable without charge semi-annually at any branch in Canada of any chartered bank. The Bonds will be dated October 1, 1940.

In accordance with the announcement made by the Minister of Finance on August 18, 1940, the Bank of Canada has been further authorized to announce that applications will be received to convert Dominion of Canada 4 1/2% Bonds due September 1, 1940, which have not yet been presented for payment, into an equal par value of additional bonds of the above issue. The 4 1/2% Bonds accepted for conversion (with final coupon detached) will be valued at 100.25% and the resultant cash adjustment in favour of the applicant will be made at the time of delivery of the new Bonds, on or after October 1, 1940.

Cash subscriptions and conversion applications may be made through any approved investment dealer or stock broker or through any branch in Canada of any chartered bank, from whom copies of the official prospectus containing complete details of the issue may be obtained.

The Minister of Finance reserves the right to allot cash subscriptions in full or in part.

The lists for cash subscriptions and conversion applications will open at the Bank of Canada, Ottawa, at 9 a.m., E.D.T., on Monday, September 9, 1940, and may be closed at any time at the discretion of the Minister of Finance, with or without notice.

NEWS & VIEWS OF TOWN AND DISTRICT

BORN.—To Mr. and Mrs. Paul Spornitz (nee Pat Washburn) of Edmonton, at the Wainwright municipal hospital on September 3rd, a son.

BORN.—To Mr. and Mrs. Sam Rajotte, of Greenshield, at the Wainwright municipal hospital, on September 2nd, a daughter.

BORN.—To Mr. and Mrs. Morton Herbert, of Heath, at the Wainwright municipal hospital on September 10th a son.

Mr. Ed Moore, who has been employed at the Gold Standard Refinery for some time, resigned his position to become manager of a marble quarry at the upper end of Kootenay Lake in B.C. and will be leaving for there with his family as soon as he can make the necessary arrangements.

Mr. and Mrs. R. S. Rudd left on Thursday for a motor trip through the Central States.

Mr. and Mrs. A. Gullickson have moved to Fort Saskatchewan, where the former has secured work on the Rodney estate.

Our Sample Book of Private Printed Christmas Greeting Cards is now here, and you are invited to drop in and place your order early while there is a full choice of cards, etc.

Mr. and Mrs. E. L. Cork and their daughter Elmer, accompanied by Miss Elsie Dahl, enjoyed a motor trip to Jasper, Banff, Edmonton and Calgary during the Labor Day holiday.

Mr. Leslie Fuller, who recently enlisted and is now stationed at Edmonton, spent the week end with his parents.

Just as cutting was practically finished and threshing had started, the heavy rains stopped all harvest operations in this district last week.

Mrs. Beazley, of New Westminster, B.C., is enjoying a visit with her son, who operates a farm in the Gilt Edge district.

Renew your subscription to The Star and get a War Savings Stamp FREE. A stamp is donated with every year paid for!

Mr. and Mrs. Percy Murray and young son left Sunday morning for Chilliwack, B.C., where they will reside in future.

On account of the sale of the Royal Bank building to the Service Meat Market, the library will be moved to the Town Hall after October 1st, where the council are providing free quarters, heat, light and janitor service to this worthy cause.

Miss Wilma Brunner arrived home on Saturday evening from the States, where she has been employed for the past several months, to visit with her parents in town.

If you are still liable to pass the doctor's examination, there is no better investment than Life Insurance. If you live, you either get your money back with interest, or provide a steady income for your old age. If you die, you have done your duty to your family and they can continue to live on the same scale they have been accustomed to. Joe Welch is agent for the Great West Life Assurance Co.

Members of the Wainwright branch of the Canadian Legion, accompanied by the local detachment of the R.C.M.P., paraded to St. Andrew's Presbyterian church on Sunday evening last in response to the King's request for a National Day of Prayer.

Mr. Emerson Cooper has rented the house on Second avenue recently vacated by A. Gullickson.

The Joe Cameron property on Third Avenue has been purchased by Mr. J. Robinson and will be used for grain storage purposes.

It should be noted that delivery permits for grain MUST be secured from elevators before September 30 and farmers are well advised to govern themselves accordingly.

Mr. Wm. Carsell is a visitor at the coast, where he is spending a short holiday.

Insurance your grain against lightning, fire or from any other dangers. The cost is small and it can be arranged for any period of time. Joe Welch, all kinds of insurance.

Church services were well attended on Sunday in compliance with King George's request that September 8th be set as a day of prayer for peace throughout the Empire.

Mr. H. C. Link was a business visitor to the city last week end.

200 pennies were brought in to The Star office on Monday by a little girl who wished to do her part in helping to win the war by exchanging her savings for War Savings Stamps.

Mr. L. E. Minter is here from the coast on a visit to relatives in the district. Calling in to see us, he brought with him some "man-sized" Alexander apples with an estimated weight of a pound each, and which are on display at The Star office.

Mr. and Mrs. E. R. Bowerman and Beattie motored to Edmonton last week end.

Mrs. E. Smith and little daughter, of Edmonton, have now moved to reside with the former's parents, Mr. and Mrs. J. Taylor. Pte. Elmie Smith was a visitor with them for a couple of days this week.

Always outnumbered, never out-fought. See Gary Cooper in "The Real Glory" at the Elsie theatre next Thursday, Friday and Saturday.

Messrs. E. W. Stacey and C. E. Ayre, from Edmonton, general manager and assistant general manager respectively of the Beaver (Alberta) Lumber Company, were in town last week checking up at their local yard.

Mr. and Mrs. W. H. Bishop are here visiting with relatives in town.

Having secured a position with the Sunburst Motor Coaches in the city, Mr. Quinton Carrell left for that point where he commenced work on Monday last.

Dr. Vernon Kennedy, of Toronto, was a guest at the home of Dr. and Mrs. E. V. Springthorpe last week.

We are sorry that Mr. Cliff Reynolds has been on the sick list for the past several days and is confined to his home.

Services at St. Thomas' (Ang.) church on Sunday last were conducted by the Rev. A. Love, a former minister at this parish. Rev. Boas, who is in training at Sarcee Camp, will be on hand next Sunday to take charge.

Our Sample Book of Private Printed Christmas Cards is now here, and you are invited to drop in and place your order early while there is a full choice of cards, etc.

COMING EVENTS

A community auction sale of all classes of cattle will be held at Wainwright on September 24th, sponsored by the Central Alberta Livestock Association and the local A.L.A. This is one of eleven such sales which are being held with the idea that the producer at the point of origin may get the full market value for his stock.

RED CROSS SHIPMENT TO ICELAND DIRECT

Shipments of Red Cross supplies, such as socks, helmets, mufflers and hospital and surgical supplies, which have been forwarded to Iceland from Canadian Red Cross warehouses in England, will be provided direct from Canada in future, it is announced by Mrs. H. F. Plumptre, chairman of war activities.

Since Canada's first troops arrived on the strategic northern outpost which Britain assumed after the domination of Denmark by Germany, cases of needed supplies have been forwarded regularly from the Canadian Red Cross stores in England. This work was carried on by the Advisory Committee overseas, acting in close co-operation with the Canadian army authorities.

Following discussions with the officials in Canada, and the establishment of arrangements by which shipments could be handled from Eastern Canadian ports, the London committee has been notified that it no longer needs to release any of its stores, thus avoiding the duplicate shipments from Canada to England to Iceland. First shipment from Canada, it is understood, is already under way for Iceland.

Messrs. B. J. Tansey and N. B. Moors were here at the local telephone exchange last week on a periodic check-up.

Mr. and Mrs. L. Mitchell are now settled in their new home on Fourth Avenue west, formerly occupied by the School Division offices.

The young son of Mr. and Mrs. Oliver Alexander was a patient at the hospital last week, where he was receiving treatments.
